

Privacy Notice for Defra Business Recycling Survey

GC Insight has invited you to take part in research on behalf of Defra.

Before you agree to take part, we want you to know exactly how your personal data is going to be used.

This Privacy Notice should give you all the information you need to help you to decide if you want to take part in the research. If you would like to find out more, there are details at the end of this document about how to get in touch, and we would be happy to help.

What is this about?

The Department for Environment, Food & Rural Affairs (Defra) is the central UK government department responsible for setting environmental policy, developing national recycling targets, and drafting associated legislation. Defra has commissioned a consortium, led by ICF, which includes GC Insight and Eunomia, to help them understand how businesses currently manage their waste and recycling.

The findings will contribute to shaping future policy, guidance and support for businesses on waste and recycling, helping to ensure that any future interventions are practical, effective and informed by business needs. The feedback may be collected by GC Insight or Eunomia, and will be through a survey, a health-check, or provision of information at a meeting.

What will it involve?

Providing information through a short survey, health-check or conversation. The survey and health-check take five minutes to complete.

Afterwards, we will collate and analyse all responses and report in aggregate. This means we will share an overall summary with Defra rather than reporting each response separately.

You DO NOT HAVE to take part. It is completely up to you whether you do or not. And if you decide at any time to change your mind about taking part, you can do so without giving a reason.

Which organisations are involved in the research?

The Department for Environment, Food & Rural Affairs (Defra) is the central UK government department responsible for setting environmental policy, developing national recycling targets, and drafting associated legislation.

An independent consultancy and lead member of the consortium commissioned by Defra to help them understand how businesses currently manage their waste and recycling.

An independent consultancy and member of the consortium commissioned by Defra to help them understand how businesses currently manage their waste and recycling.

An independent consultancy and member of the consortium commissioned by Defra to help them understand how businesses currently manage their waste and recycling, particularly delivering the intervention.

What information will you have about me?

Prior to you taking part in the research, we will not have any of your personal information. If you choose to complete the survey, we will collect information relating to your waste and recycling attitudes, knowledge and behaviour as well as information about your role and your business. Providing contact data such as your name, email address and telephone number will be voluntary.

How will my information be stored?

Your personal data will be processed as digital data. Only the authorised personnel in the research teams at GC Insight, ICF and Eunomia will be able to see your personal data.

Our digital systems and internal processes comply with GDPR and other data processing regulations. Once we have finished collecting responses from everyone, we will combine them all so that we can analyse and report our findings to Defra.

Your personal data will be kept for no more than six months after we have finished the project. At the moment, we expect this to be July 2027.

What can I do if I'm not happy with how my information is being used?

At any point, you can choose to not take part in the research, or for your information to be shown to you, changed or deleted. If you want to make a complaint about how your information is being stored or used, you can contact:

0161 528 1660 or dataprotection@gcinsight.co.uk

0303 123 1113 <https://ico.org.uk>

Is there any other information I might need to know?

Because we are looking after your personal data, there are certain laws that we need to obey, and certain things that we need to share with you.
